Projects

Admin Dashboard

- This is a simple **Admin UI** that interacts with a list of users. The app supports several key features.
- Search:** Allows users to filter through the list of employees by name, email, or role.
- Pagination:** Displays a paginated list of employees with options to navigate between pages.
- Edit & Delete Individual Rows:** Each row in the table has icons for editing and deleting individual user data.

E-Commerce

- Responsive E-commerce Clone:** A mobile-friendly e-commerce website built with HTML and CSS, featuring product listings, a shopping cart, and seamless adaptability across devices.
- Key Features:** Clean homepage, product detail pages, and a responsive layout using Flexbox and Grid for an optimal user experience.

Survey Form

- Survey Form:** A simple, responsive web form built with HTML and CSS to collect user feedback, featuring fields like text inputs, radio buttons, checkboxes, and a submit button, designed to be mobile-friendly
- Key Features:** Includes sections for user information, multiple-choice questions, and a submit button, with a responsive layout ensuring a smooth experience on both desktop and mobile devices.
